***Satellite Cities: The Role of Industrial Suburbs in the Heritage of the Calumet Region***

The 12th Annual Calumet Heritage Conference, on Saturday, October 22, 2011 in Blue Island, Illinois, is a celebration of the Calumet region's foundations and future.....its diverse heritage.

A constellation of satellite cities has grown around Chicago over the past century to give shape to the industrial economy, society and landscape of the Calumet region. Each city fits into the network; but each is its own special place. Few places offer a better vantage point to consider industrial suburbs than Blue Island, a diverse and vibrant community since 1835.

The CALUMET HERITAGE PARTNERSHIP is a diverse bi-state coalition of environmental, cultural and historical organizations, community residents, libraries, educational institutions, municipalities and government agencies. Its mission is to identify, preserve, protect, and reclaim the natural, historical, cultural and recreational treasures of the Calumet region.

Join the <b>Calumet Heritage Partnership (CHP)</b> when you register and receive a \$5 discount for the conference.
